WORK EXPERIENCE

Sr. Software Developer | Eunoia Softtech Pvt Ltd *Oct 2023 – Present | Remote*

Project: Asat Logistics (Software Development)

- Designed and implemented ERP systems using C# and .NET MVC, streamlining business operations and enabling end-to-end process automation.
- Built dynamic, responsive front-end interfaces with jQuery, JavaScript, and AJAX to support real-time data updates and a smoother user experience.
- Wrote and optimized complex SQL queries and stored procedures in SSMS, improving data retrieval efficiency for high-volume ERP modules.
- Integrated third-party APIs to enable seamless data synchronization across ERP modules.
- Debugged and resolved application issues to maintain system stability and reliability in a live production environment.
- Integrated SAP Crystal Reports to generate interactive business reports, print outputs, and dashboards for client stakeholders.
- Developed custom print templates tailored to client requirements for professional, audit-ready documentation.
- Partnered with cross-functional teams to gather requirements and deliver ERP solutions tailored to specific business needs.

Software Engineer / Analyst A4 | Capgemini *Apr 2022 – Oct 2022 | Airoli, Mumbai*

Project: Stellantis / PSA — Supply and Manufacturing Chain (Bundle)

- Developed and debugged the Pleaide application, ensuring seamless functionality through workflow analysis and rigorous testing.
- Designed and developed features per client stories and requirements, with a focus on front-end usability in Java.
- Collaborated directly with clients to gather requirements and identify opportunities to improve functionality.
- Worked with engineers and stakeholders to implement enhancements that improved overall client satisfaction.
- Used Java, Spring Boot, SQL, and Bootstrap to build scalable, performance-focused solutions.

EDUCATION

Bachelor of Engineering, Computer Science — Mumbai University, 2020
Diploma in Computer Engineering — MSBTE, 2017
